Make Cool Pictures and Videos with AI Magic

01

Make Amazing Audio in Just Minutes

- **AI Magic Tool: Lovo.ai**
- **Category: Voice Generator**
- **Purpose: Assists in generating audio content for your videos.**
- **Website link: <http://Lovo.ai>**

Would you like to enhance your stories, projects, or school reports with exciting voices?

Lovo.ai is an incredible tool that allows you to transform written text into engaging audio effortlessly and rapidly. Let's dive into how you can enhance your content with it!

Before We Begin:

Warm-Up Challenge!

Picture yourself creating an amazing audio project. What type of voice do you envision using? Consider the narrative or theme of your project. Should it be a lively, energetic voice, a serious expert tone, or perhaps a voice reminiscent of a character from your favorite show? Take a moment to imagine your perfect audio project!

Quick Fun Quiz

What audio project would you create using Lovo.ai?

A humorous cooking program featuring goofy voice effects.

A wildlife documentary featuring sounds from your backyard.

A podcast focused on space exploration featuring translations of alien languages

DISCOVER THE MAGIC OF DESCRIPT!

What Can Lovo.ai Do?

1

AI Voice Generator

- **WHAT IT DOES:** This feature converts your text into lifelike audio using a variety of voices. You can select from over 500 voices across more than 100 languages!
EXAMPLE: If you're creating a history project on ancient Egypt, you might opt for a voice that mimics an expert historian to narrate your work. Alternatively, if you're producing a lively video about your beloved pet, you can choose a cheerful voice that adds an exciting touch.
- **HOW TO USE IT:** Type or paste your text into Lovo.ai, select a voice you prefer, and click "Generate" to produce your audio.

2

Auto Subtitle Generator

- **WHAT IT DOES:** This tool enhances your videos with dynamic subtitles, making them more accessible. You can also tailor the appearance of the subtitles!
- **EXAMPLE:** If you've created a video demonstrating a science experiment, this feature lets you add subtitles for clear, step-by-step understanding. Choose fun colors and fonts to make it visually appealing.
- **HOW TO USE IT:** Upload your video, click on "Auto Subtitles," customise them with your preferred styles, and export your video featuring the updated subtitles.

3

Voice Cloning

- **WHAT IT DOES:** This feature enables you to craft a personalized voice that mimics your own or someone else's! It's perfect for your projects or videos.

EXAMPLE: To make a video resonate with a character from your story, you can clone a voice to reflect that character. Alternatively, you might create a voice similar to your favorite cartoon character, adding a unique touch to your video.

- **HOW TO USE IT:** Record a brief sample of your voice or upload an existing one to create a voice clone. This clone can then be used for any of your audio projects.

4

AI Art

- **WHAT IT DOES:** This tool generates images from your descriptions, which is ideal for enhancing your videos or projects with stunning visuals!

EXAMPLE: For a presentation on space, describe the planets and stars, and the AI will create corresponding images. Incorporate these visuals into your project for an impressive effect.

- **HOW TO USE IT:** Describe the desired image, select a style such as "cartoon" or "realistic," and allow the AI to produce the image. You'll receive multiple versions to choose from.

5

AI Writer

- **WHAT IT DOES:** Assists in crafting scripts or stories with various tones such as humorous, friendly, or informative.
EXAMPLE: For a class presentation on your favorite book, this tool can help you create a lively and engaging script.
- **HOW TO USE IT:** Select your desired tone for the script, share details about your topic, and allow the AI to generate it for you.

Cost Information

Lovo.ai provides a complimentary plan that includes a 14-day trial of Pro features. Paid options begin at \$29 per month for the Basic plan and \$48 per month for the Pro plan.

AI MISSIONS – Let's Get Creative!

Mission
1

Create a Fun Audio Story!

Objective:

Transform a brief story into a captivating audio clip using Lovo.ai.

Instructions:

- 1. WRITE YOUR STORY:** Create an entertaining tale about a whimsical adventure or a comical pet.
- 2. USE LOVO.AI:** Enter your story into Lovo.ai, choose a lively voice, and produce the audio.
- 3. CUSTOMIZE:** Fine-tune the voice settings to match your preferences perfectly.

Mission
2

Add Subtitles to a
Science Video!

Objective:

Utilize the Auto Subtitle Generator to insert subtitles into a video detailing a science experiment.

Instructions:

- 1. CREATE YOUR SCIENCE VIDEO:** Capture a video demonstrating a straightforward experiment or project.
- 2. USE LOVO.AI:** Upload your video, select "Auto Subtitles," and enhance with dynamic subtitles.
- 3. CUSTOMIZE:** Choose colors and fonts to make the subtitles pop.

Mission 3

Make a Voice Clone for a Book Report!

Objective:

Create a voice to read a book report.

Instructions:

1. **WRITE YOUR BOOK REPORT:** Provide a summary of your favorite book or story.
2. **USE LOVO.AI:** Generate a voice clone that reflects the tone of your report.
3. **GENERATE AUDIO:** Utilize the cloned voice to deliver your report's narration.

Lovo.ai allows you to produce amazing audio for your projects, videos, and narratives.

Enjoy crafting your content to sound incredible!

02

Create Fun Videos with AI Avatars in 3 Simple Steps

- **AI Magic Tool: D-ID**
- **Category:** video generation and AI avatars
- **What it does:** helps you create fun videos and avatars
- **Link to website:** <https://www.d-id.com>

Welcome to D-ID, the awesome tool that helps you make cool short videos with talking avatars!

Whether you want to create funny clips or share exciting facts, D-ID makes it super easy. Let's dive into how you can use this tool to bring your video ideas to life!

Before We Begin: Warm-Up Challenge!

Imagine you're making a super fun video with a talking avatar. What kind of video would you create? Think about something exciting or funny you'd like to share. Would it be a video about your favorite hobby, an educational fact, or maybe a silly story? Take a moment to picture your ideal video and how D-ID could help you make it amazing!

Quick Fun Quiz

If you could create a video with D-ID, what would you choose?

- A video about your favorite hobby with a fun avatar
- An educational video with cool facts and a smart avatar
- A short story or joke with a funny avatar

LET'S GET STARTED!

What Can D-ID Do?

1

Create Cool Video Ideas

- **WHAT IT DOES:** Helps you come up with fun and exciting ideas for short videos.
EXAMPLE: If you want to make a video about your favorite hobby, like building LEGO or drawing, D-ID can help you brainstorm fun video ideas like "Top 5 LEGO Creations" or "How to Draw Your Favorite Animal."
- **HOW TO USE IT:** Write down a list of fun video ideas you're excited about, then use D-ID to bring those ideas to life with talking avatars!

2

Generate Your Script

- **WHAT IT DOES:** Helps you create a script for your video so the talking avatar knows what to say.
EXAMPLE: For your "Top 5 LEGO Creations" video, you can use D-ID to write a script that starts with a catchy line like, "Here's a LEGO secret nobody seems to know about!" Then, talk about the coolest LEGO sets and how to build them.
- **HOW TO USE IT:** Create a short script with a fun introduction, interesting facts, and a call to action, like inviting viewers to share their own LEGO creations.

3

Create Your Talking

- **WHAT IT DOES:** Turns your script into a video with a talking avatar that reads your script out loud.
EXAMPLE: Choose an avatar that looks like a fun character and make it read your script about "How to Draw Your Favorite Animal." The avatar will talk just like a real person, making your video super engaging!
- **HOW TO USE IT:** Go to the D-ID website, select your avatar, add your script, pick the language and voice, and generate your video. It's that simple!

Cost Information

D-ID offers a free trial, with pricing plans starting at \$5.90 per month for Lite and \$29 per month for Pro.

AI MISSIONS – Let's Get Creative!

Objective:

Create a fun video about something you love doing.

Instructions:

1. **COME UP WITH AN IDEA:** Think about your favorite hobby, like making slime or baking cookies.
2. **WRITE A SCRIPT:** Create a short script about how to do your hobby, using D-ID's AI to help make it sound exciting.
3. **SE D-ID:** Choose an avatar, add your script, and generate your video.

Mission 2

Create a Video with Fun Facts for a School Project!

Objective:

Make an educational video with interesting facts.

Instructions:

1. **PICK A TOPIC:** Choose a topic for your school project, like "Amazing Facts About Space" or "Fun Animal Facts."
2. **WRITE A SCRIPT:** Use D-ID's AI to create a script with cool facts and a fun introduction.
3. **CREATE YOUR AVATAR VIDEO:** Select an avatar and use it to present the facts in your video.

Mission 3

Make a Short Story Video for Your Friends!

Objective:

Create a video telling a short story or joke.

Instructions:

1. **CHOOSE A STORY:** Think of a fun story or joke to share, like a silly adventure or a funny riddle.
2. **WRITE A SCRIPT:** Use D-ID's AI to create a script that tells your story or joke in a fun way.
3. **USE D-ID:** Pick an avatar, add your script, and make a video that your friends will love!

With D-ID, creating amazing short videos with talking avatars is super easy and fun.

Enjoy making your videos and sharing them with friends and family!

03

Take Your Videos and Podcasts to the Next Level of Fun!

AI Magic Tool: Descript

Category: content creation

What it does: helps you write, record, transcribe, and edit your content

Link to website: <https://www.descript.com>

Descript is an awesome tool that makes it super easy to create and fix up your videos and podcasts.

It's like having a magical editor that can make your content sound and look amazing!

Before We Begin: Warm-Up Challenge!

Pick a fun topic like "A Day in Our School" or "Our Favorite Games." Together, record a short video or podcast about your chosen topic. Then, use Descript to edit, add sound effects, and make it extra special.

Quick Fun Quiz

What would you like to make?

A video about your school day

A podcast about your favorite game

A fun story with cool sound effects

DISCOVER THE MAGIC OF DESCRIPT!

1

Easy Video Editing

Descript helps you make your videos look and sound awesome, just like a real editor.

- **EDIT LIKE A PRO:** Descript lets you fix mistakes and cut out parts you don't like, just like editing a document.
EXAMPLE: If you're making a video about your favorite hobby and you say "um" a lot, Descript can help you remove those "um"s to make your video sound smoother!
- **ADD FUN EFFECTS:** You can put sound effects into your video to make it more exciting.
EXAMPLE: Add a funny "boing" sound when you show a bouncing ball in your video.
- **USE TEMPLATES:** Create videos that fit perfectly on social media, like YouTube or Instagram.
EXAMPLE: Make a video that's just the right size for Instagram Stories so everyone can see your awesome project.

2

Cool Podcasting

Descript helps you make your podcasts sound super professional, even if you don't have a real studio.

- **PERFECT SOUND:** Get studio-quality sound without needing fancy equipment.
EXAMPLE: Record your podcast about your favorite book, and descript will make it sound like it was recorded in a professional studio!
- **FIX MISTAKES EASILY:** Remove words or sounds you don't want with just one click.
EXAMPLE: If you accidentally say something twice in your podcast, you can remove the extra part quickly and easily.
- **AI VOICE CLONE:** Create an AI version of your voice and add new parts to your podcast by typing what you need.
EXAMPLE: If you want to add more to your podcast without re-recording, descript can use your voice to say new sentences just by typing them out.

3

Super-Fast Transcription

Turn your spoken words into written text quickly and accurately.

- **TRANSCRIBE QUICKLY:** Your recordings are turned into text so you can easily find and edit what you said.
EXAMPLE: If you record a story about your weekend, descript will turn it into text so you can see what you talked about and make changes if needed.
- **TRANSLATE & DETECT SPEAKERS:** It supports many languages and can tell who is talking.
EXAMPLE: If you're making a podcast with friends, descript can help figure out who is speaking each part and even translate it into another language!

4

Fun AI Tools

Descript has extra cool features to make your content even better!

- **YOUTUBE SHORTS MAKER:** Turn your long videos into short clips for YouTube Shorts.

EXAMPLE: If you made a video about your school science project, use Descript to create a short, exciting clip to share on YouTube!

- **PODCAST SCRIPT GENERATOR:** Get help making scripts or questions for your podcast.

EXAMPLE: If you're making a podcast about a school project, Descript can help you come up with questions or an outline to follow.

- **VIDEO BACKGROUND CHANGER:** Change or remove the background of your video without needing a green screen.

EXAMPLE: Replace your bedroom background with a space scene in your video about a space adventure.

- **INSTAGRAM VIDEO EDITOR:** Perfectly edit videos for Instagram reels.

EXAMPLE: Make a fun reel about your pet doing tricks, and Descript will help you edit it to fit Instagram perfectly.

Cost Information

You can start using Descript for FREE, and if you want to unlock even more features, paid plans start at \$12 per month.

AI MISSIONS – Let's Get Creative!

Mission 1

Create Your Own Superhero Podcast!

Objective:

Record and edit a podcast where you and your friends or family pretend to be superheroes!

Instructions:

- 1. CHOOSE YOUR SUPERHEROES:** Decide what superhero characters you and your friends will play. For example, you could be “Captain Space” and your friend could be “The Gadget Guru.”
- 2. RECORD YOUR PODCAST:** Use Descript to record your superhero adventures. Describe your powers and the exciting missions you go on.
- 3. EDIT YOUR PODCAST:** Use Descripts tools to clean up the recording. Remove any “ums” or “uhs,” and add sound effects like “zap” and “pow” to make it sound super cool.
- 4. ADD AI VOICES:** Try out the AI voice cloning feature to add a new superhero voice to your podcast. You can make it sound like a robot or an alien!

Mission 2

Make a Magical Video Adventure

Objective:

Create a short video where you go on a magical adventure in a fantasy world!

Instructions:

- **OBJECTIVE: PICK YOUR ADVENTURE:** Choose a fantasy theme for your video, like "A Trip to the Magical Candy Land" or "Exploring the Secret Jungle."
- **RECORD YOUR VIDEO:** Use Descript to record a video where you pretend to be explorers on an adventure.
- **EDIT YOUR VIDEO:** Use Descripts editing tools to remove any mistakes and add fun effects. You can change the background to make it look like you're in a magical land!
- **ADD COOL EFFECTS:** Add special effects like sparkles or fairy sounds to make your adventure even more magical.

Mission 2

Make a Magical Video Adventure

Objective:

Create a video about your favorite school project or subject and make it look super professional!

Instructions:

- **SELECT YOUR PROJECT:** Choose a school project or subject you're excited about, like "My Cool Science Experiment" or "Our Class Garden."
- **RECORD YOUR VIDEO:** Record a video explaining your project or showing off your work.
- **EDIT YOUR VIDEO:** Use Descript to edit your video. Fix any mistakes, add captions, and include sound effects to highlight important parts.
- **USE AI TOOLS:** Try out Descript's AI tools to add interesting voiceovers or change the video background to make it look like you're presenting in a high-tech lab.

Ready to start creating?

Dive into Descript and make your videos and podcasts shine with ease!

04

Make Awesome Videos in Seconds!

- **AI Magic Tool: VEED.io**
- **Category: video generation**
- **What it does: helps you create videos with avatars**
- **Link to website: <https://www.veed.io>**

**Ever wished you could make cool videos quickly and easily?
Now you can!**

With VEED.io, you can turn your ideas into amazing videos in just a few minutes.
Let's dive in and explore how to create videos that are fun and exciting!

Before We Begin: Warm-Up Challenge!

Think about a fun video you'd like to make. It could be about a story you love, a school project, or just something silly that makes you laugh. VEED.io has awesome tools to help you bring your video ideas to life.

Quick Fun Quiz

What type of video would you like to create?

A video about your favorite book or story

A fun how-to video for a school project

A silly skit with animated avatars

LET'S GET STARTED!

How to Make Your Video:

1

PICK YOUR IDEA:

Choose a fun topic for your video. It could be anything from a science project to a story about a magical creature.

2

EXPLORE VEED.IO'S COOL FEATURES:

- **VOICE CLONING:** Make a voice that sounds just like yours! You can also pick from different voices if you want something unique.
- **AVATARS:** Create animated characters that talk and move just like real people. Choose a preset avatar or make a custom one.
- **EYE CONTACT AI:** Make it look like you're looking right at the camera, even if you're reading from a script.

3

EXPERIMENT AND CREATE:

- Use VEED.io to add subtitles, cool effects, and even background music to your video.
- Check out the stock videos and audio to make your video even better.

Cool Features of VEED.IO

1

Voice Cloning

- **MAKE YOUR OWN VOICE:** Imagine you have a magical voice box that can copy your voice exactly! Record yourself saying a few lines, and VEED.io will make a voice that sounds just like you.
Example: If you're making a video about your favorite superhero, you can use your voice to narrate the story, and it will sound like you're speaking even when you're not in front of the camera!
- **CHOOSE A VOICE:** Pick from over 30 different voices with various tones and speeds.
EXAMPLE: Want your video to sound like a robot or a pirate? Choose a voice that fits your character and make your video even more fun!

2

Avatars

- **CREATE ANIMATED CHARACTERS:** Make your very own animated characters that can talk and move just like real people! Choose from preset avatars or make a custom one.
Example: If you're doing a video about a magic school, create a wizard avatar that helps tell the story. Your wizard can explain magical spells or go on adventures!
- **CUSTOM AVATARS:** Want something special? Contact VEED.io to create an avatar that looks just like you!
EXAMPLE: Make an avatar that looks like your favorite cartoon character and use it in your video for a super cool touch!

3

Eye Contact AI

- **LOOK PROFESSIONAL:** With VEED.io's eye- racking, it looks like you're always looking at the camera, even when you're reading from a script.
EXAMPLE: If you're doing a video about how to build a birdhouse, you can read your script and still look like you're speaking directly to your viewers.

4

Text to Video

- **CREATE A VIDEO FROM TEXT:** Type a text prompt, like "How to make a paper airplane", and VEED.io will turn it into a video!
EXAMPLE: If you want to explain how to draw a funny monster, just write down the steps, and VEED.io will make a video showing each step in action.

5

Subtitles

- **ADD CAPTIONS:** Automatically generate subtitles so everyone can understand your video, even if they don't speak your language!
EXAMPLE: If your video is about a fun science experiment, add subtitles so all your friends can follow along with what's happening, no matter where they're watching from!

6

Record and Edit in One Place

- **EDIT DIRECTLY:** Click on video elements to change them right on the screen. This makes editing fast and easy!
EXAMPLE: If you're making a video about your pet cat's tricks, you can click and edit scenes quickly, making sure each trick looks perfect without any fuss.

Cost Information

You can start using VEED.io for free. If you want to upgrade, the Basic plan costs €13 per month.

AI MISSIONS – Let's Get Creative!

Mission 1

Science Project Video

Objective:

Create a short video about a science project you did at school.

Instructions:

PICK YOUR FAVORITE PARTS: Choose the best moments from your project.

USE VEED.IO: Add cool effects and subtitles to make your video exciting.

ARE YOUR VIDEO: Show your classmates or family the awesome project you worked on!

Mission 2

Magical Story Skit

Objective:

Make a fun video of a magical story with animated avatars

Instructions:

WRITE A SHORT SCRIPT: Create a little story about a magical adventure.

ANIMATE CHARACTERS: Use VEED.io to make animated avatars act out your story.

ADD VOICE AND EFFECTS: Use voice cloning and effects to bring your story to life!

Mission 3

How-To Video

Objective:

Create a video showing how to do something, like making a paper airplane.

Instructions:

WRITE Steps: Outline the steps to make your paper airplane.

CREATE A VIDEO: Use VEED.io to make a clear, fun video showing each step.

ADD SUBTITLES: Help viewers follow along by adding subtitles.

VEED.io makes video creation fun and easy with cool tools and features. Explore, experiment, and let your creativity shine!

Ready to make your own awesome videos?

5

Build Your Website Using These 3 Fun AI Tools

- AI Magic Tool: multiple
- Category: website building
- What it does: helps you build your website in one day
- Link to website:
<https://durable.co> <https://runwayml.com/> <https://scripai.com/>

Are you prepared to create your website? With the aid of some fantastic AI technologies, you and your parents may create a website in a single day!

Let's have some fun and learn how to use these tools to make a super cool website.

Before We Begin: Warm-Up Challenge!

Imagine you're building a Website for a fun project. What type of website would? You design, and what would it be about? Think about your favorite themes or Interests and how you'd like to share them online. Ready to see your ideas Come to life?

Quick Fun Quiz

Which AI tool would you use to make a cool video for your website?

- Durable.co to quickly create your website
- Runway to turn your text description into a fun video
- Script AI to write a short script for your video translations

LET'S GET STARTED

What Can Lovo.ai Do?

What Tools Will We Use?

1

DURABLE.CO: This tool helps you create a whole website in just 30 seconds!

2

RUNWAY: This tool turns text descriptions into exciting videos!

3

SCRIPT AI: This tool makes writing short video scripts super-fast and easy!

How to Build Your Website

1

Create Your Website in 30 Seconds with Durable.co

- **WHAT IT DOES:** You may instantly create a website using Durable.co. You don't need to know any code to add text and images!

EXAMPLE: Let's say you would want a webpage for your preferred superhero club. In just 30 seconds, Durable.co can build a website for your group with eye-catching graphics and text!

- **HOW TO USE IT:** Visit Durable.co, enter the purpose of your website, and watch it come to life in seconds.

2

AI Art

- **WHAT IT DOES:** Runway enables you to turn text or images into films. You may create entertaining videos with your ideas!

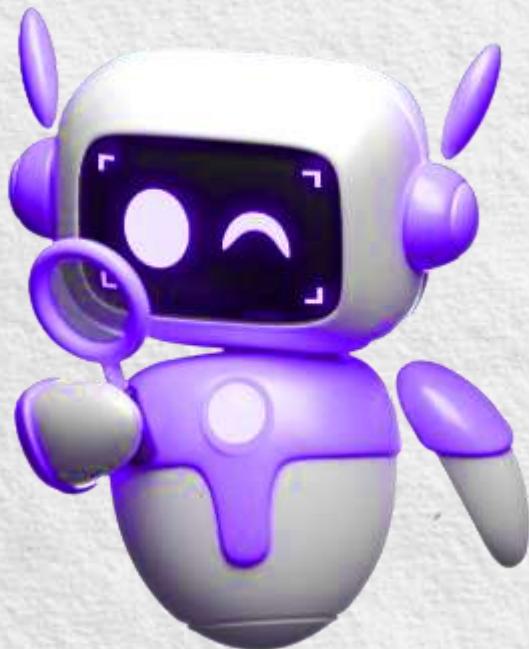

EXAMPLE: Provide a picture or use words to illustrate the magic trick you learned, and Runway will create an awesome video for you!

- **HOW TO USE IT:** Runway will make the film you want if you describe it as "a magic trick where a rabbit pops out of a hat."

3

AI Writer

- **WHAT IT DOES:** Script AI speeds up the process of writing brief video scripts. Ideal for Instagram Reels, YouTube clips, and TikToks! For instance, screenplay AI can assist you in writing a screenplay quickly if you want to create a quick movie that demonstrates how to construct a paper airplane.
- **HOW TO USE IT:** Go to Script AI, enter the topic of your video, and it will assist you in creating a script.

Cost Information

Lovo.ai offers a free plan with a 14-day trial of Pro features, while paid plans start at \$29/month for the Basic plan and \$48/month for the Pro plan.

AI MISSIONS – Let's Get Creative!

Mission 1

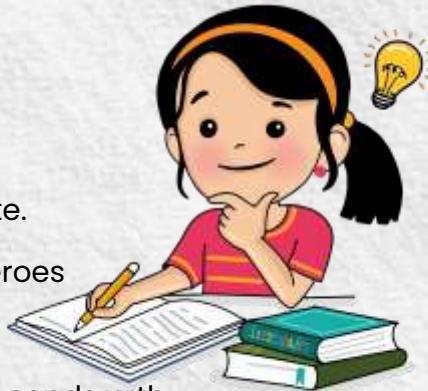

Create a Fun Video Story!

Objective:

Make your superhero club a webpage.

Instructions:

1. **PICK YOUR THEME:** Choose the topic of your website. Perhaps it's to provide news about your favorite heroes to a superhero club.
2. **CREATE YOUR WEBSITE:** Create the website in 30 seconds with Durable.co. Include entertaining facts and superhero pictures.
3. **CUSTOMIZE YOUR SITE:** Include content describing the activities of your club together with an eye-catching design.

Mission 2

Add a Magic Trick Video!

Objective:

Make an entertaining video that demonstrates a magic trick.

Instructions:

1. **DESCRIBE YOUR TRICK:** Consider doing a magic trick, such as making a coin vanish.
2. **CREATE YOUR VIDEO:** Use Runway to create a video from your description. Please give a detailed explanation of the technique, then allow Runway to bring it to life.
3. **SHARE THE MAGIC:** Show your loved ones your video!

AI MISSIONS – Let's Get Creative!

Objective:

Compose a screenplay for a brief film about your preferred subject.

Instructions:

1. **PICK A TOPIC:** Decide on a topic for your film, such as making a birdhouse.
2. **WRITE YOUR SCRIPT:** Write a short script with Script AI. It will assist you in organizing your video's content.
3. **MAKE YOUR VIDEO:** Make your video using the script, then send it to your friends.

These AI tools make it incredibly simple and enjoyable to create websites, movies, and scripts.

Prepare to construct, produce, and distribute your fantastic projects!

6

Make Your Words Come to Life with ElevenLabs

- AI Magic Tool: ElevenLabs
- Category: audio
- What it does: helps you create real-sounding voices for your stories
- Link to website: <https://elevenlabs.io>

Ever wanted to hear your stories or school reports read out loud by a cool, realistic voice?

ElevenLabs is an awesome AI tool that turns your written text into spoken audio. Let's dive in and explore how you can use this tool to make your words come alive!

Before We Begin: Warm-Up Challenge!

Imagine you're a movie director for a day, but this time, your movie is all about sound! What kind of fun audio project would you like to create? Think about your favorite story, report, or adventure. Would it be a superhero adventure, a science experiment, or a magical tale? Take a minute to dream up your awesome audio idea!

Quick Fun Quiz

If you could create an audio project with ElevenLabs, what would you choose?

A superhero story with a heroic voice

A science report with an expert-sounding voice

A magical tale with a mystical voice

LET'S GET STARTED!

What Can ElevenLabs Do?

1

Text to Speech

- **WHAT IT DOES:** This feature turns any written text into spoken audio with realistic voices. You can choose different voices and languages to match your needs.
EXAMPLE: If you have a story about a superhero adventure or a science report, you can use ElevenLabs to turn it into a narrated audio clip that sounds like a real person is reading it out loud.
- **HOW TO USE IT:** Just type or paste your text into ElevenLabs, pick a voice, and let the tool create your audio. You can listen to it and download it when you're happy with the result.

2

AI Voice Generator

- **WHAT IT DOES:** This feature creates unique voices that sound just like a real person. You can make voices that are calm, energetic, or even funny!
EXAMPLE: Imagine you're making a video for a class project about ancient Egypt. You can choose a voice that sounds like an explorer or a historian to make your video more engaging.
- **HOW TO USE IT:** Select a voice style, adjust settings if needed, and generate your audio to match the mood of your project.

3

Customizable Voices

- **WHAT IT DOES:** You can create a voice that sounds like someone you know or even like your own voice! This is perfect for making your videos or podcasts feel personal and unique.
EXAMPLE: If you're doing a podcast about your favorite book, you can make a voice that sounds just like yours to read the book excerpts or summaries.
- **HOW TO USE IT:** Record a sample of your voice, and ElevenLabs can create a voice that sounds like you. You can then use this voice for your projects.

4

Long-form Video Narration

- **WHAT IT DOES:** This feature is great for turning longer texts like books or detailed reports into audio. It helps you narrate entire books or big projects.
EXAMPLE: If you have a long book report or a research paper, ElevenLabs can help you turn it into a spoken audio file, perfect for sharing with classmates or teachers.
- **HOW TO USE IT:** Upload your long text, adjust settings for pauses and voice changes, and let ElevenLabs create your narrated audio.

Cost Information

Eleven Labs offers a free plan for up to 10,000 characters per month, while paid plans start at \$5/month for the Starter plan and \$11/month for the Creator plan.

AI MISSIONS – Let's Get Creative!

Mission
1

Create a Superhero
Story Audio!

Objective:

Turn a written superhero story into an exciting audio clip.

Instructions:

1. WRITE YOUR SUPERHERO STORY: Create a fun story about a superhero who saves the day.
2. USE ELEVENLABS: Paste your story into ElevenLabs, choose a superhero-like voice, and let it turn your text into a cool audio clip.
3. CUSTOMIZE: Adjust the voice settings to make it sound heroic or adventurous.

Mission
2

Make a Science Project
Audiobook!

Objective:

Convert a science project report into a clear and informative audio.

Instructions:

1. WRITE YOUR SCIENCE REPORT: Summarize your science project or experiment in a written report.
2. CUSTOMIZE: Add pauses for important points and make the audio easy to follow.

Mission 3

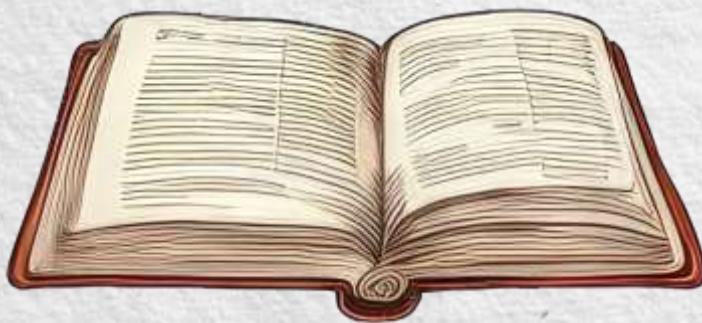

Narrate a Book Report

Objective:

Turn your book report into a captivating audio file.

Instructions:

1. WRITE YOUR BOOK REPORT: Summarize your favorite book and what you liked about it.
2. USE ELEVENLABS: Paste your report into ElevenLabs and choose a voice that fits the tone of the book.
3. CUSTOMIZE: Adjust the voice to match the book's mood and add any additional audio elements you like.

With ElevenLabs, you can easily turn your written text into amazing spoken audio. It's a fun way to bring your stories, reports, and projects to life.

Enjoy making your audio creations!

7

Turn Stories into Videos with Ease

- AI Magic Tool: Lumen5
- Category: video creation
- What it does: helps you create awesome videos
- Link to website: <https://lumen5.com/>

Want to turn your written stories or school reports into awesome videos?

Lumen5 is a fun AI tool that helps you do just that. You can turn your text into exciting videos with pictures, music, and more! Let's see how it works and have some fun with it!

Before We Begin: Warm-Up Challenge!

Imagine you're a movie director for a day. What kind of fun video would you like to make? Think about your favorite story or adventure.

Would it be about superheroes, magical creatures, or maybe a day in the life of your pet? Take a minute to dream up your awesome video idea!

Quick Fun Quiz

How would you like your video layout to look?

- Full screen with big, bold text
- Colorful backgrounds with animated characters
- Split-screen showing both the video and text

LET'S GET STARTED!

What Can Lumen5 Do?

1

Convert Text to Video

- **WHAT IT DOES:** Lumen5 takes your written text, like a story or school report, and turns it into a video. It adds cool images and animations to make your text come to life! EXAMPLE: If you write a story about a magical adventure in your backyard, Lumen5 can turn it into a video with pictures of magical creatures and exciting scenes.
- **HOW TO USE IT:** Paste your story or school report into Lumen5, and it will create a video with images and animations that match your text.

2

AI Script Composer

- **WHAT IT DOES:** This feature helps you make a script for your video by turning your text into different video scripts. You can pick the one that sounds the best! EXAMPLE: If you have a report about your favorite animal, the AI script Composer can give you different ways to write your video script. You can choose the one that makes your video the most fun!
- **HOW TO USE IT:** After pasting your text, the AI Script Composer will give you several script options. Choose the one you like best.

3

Customize Your Video

- **WHAT IT DOES:** You can change how your video looks by picking different backgrounds, fonts, and colors. You can even add your own voice or music!
EXAMPLE: If your video is about a school science project, you can pick a background that looks like a science lab, choose fun fonts, and add music to make your video more exciting.
- **HOW TO USE IT:** Use Lumen5's tools to select backgrounds, add music, and customize your video to make it look just how you want.

4

Caption Your Video with Ease

- **WHAT IT DOES:** Lumen5 automatically adds captions to your video. This means you don't have to type them out yourself!
EXAMPLE: If your video is about a book report, Lumen5 will add captions to show what you're saying, so everyone can read along as they watch.
- **HOW TO USE IT:** When you add a voiceover or talking head, Lumen5 will automatically create captions to match.

Cost Information

Lumen5 offers a free plan with limited features, while paid plans start at \$29/month for Basic and \$79/month for Starter.

AI MISSIONS – Let's Get Creative!

Mission 1

Make a Magical Story Video!

Objective:

Turn a written story into a fun video.

Instructions:

1. WRITE A MAGICAL STORY: Create a story about a magical adventure in your backyard or garden.
2. USE LUMEN5: Paste your story into Lumen5 and watch as it turns your text into a video with magical images and animations.
3. CUSTOMIZE: Pick backgrounds, add music, and choose fun fonts to make your video as magical as your story.

Mission 2

Create a School Science Project Video!

Objective:

Turn a science report into an engaging video.

Instructions:

1. WRITE YOUR SCIENCE REPORT: Describe your science project or experiment, like making a volcano erupt.
2. USE LUMEN5: Paste your report into Lumen5, and let it turn your text into a video with science-related images and animations.
3. ADD DETAILS: Customize your video with a science lab background, add captions to explain your experiment, and choose exciting music.

Mission 3

Create a School Science Project Video!

Objective:

Convert a book report into a captivating video.

Instructions:

1. WRITE YOUR BOOK REPORT: Summarize your favorite book and what you liked about it.
2. USE LUMEN5: Paste your book report into Lumen5 to create a video with images and animations related to the book.
3. PERSONALIZE: Add book-themed backgrounds, select fun fonts, and include music to make your video engaging and fun.

With Lumen5, you can easily turn your written texts into cool, professional-looking videos. It's a fun way to share your stories, reports, and projects with friends, family, and classmates.

Have fun creating your videos!

8

Turn Your Ideas into Awesome Drawings

- AI Magic Tool: Canva
- Category: Design and image generation
- What it does: helps you create cool visuals and pictures
- Link to website: <https://www.canva.com/>

Are you ready to dive into a super fun world where your ideas turn into amazing designs?

Quick Fun Quiz

If you could design a magical world, which one would you create?

A jungle with friendly dinosaurs and glowing plants

A space station with robot friends and cosmic adventures

A snowy wonderland with talking snowmen and ice castles

Before We Begin: Warm-Up Challenge!

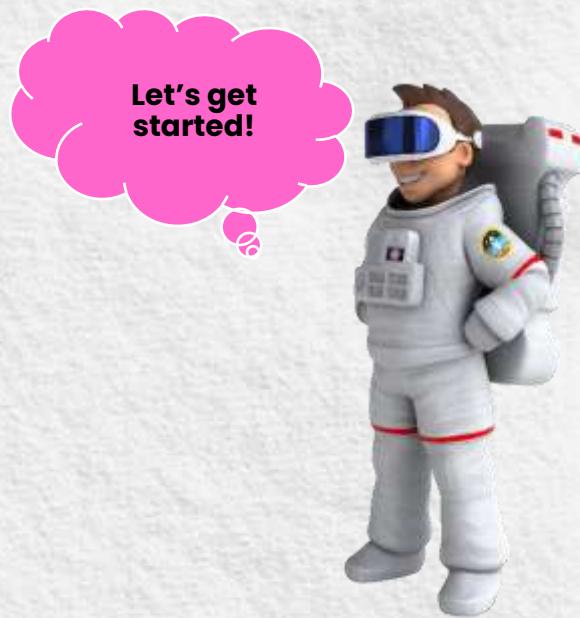

Grab a paper and some markers. Draw your idea of a fun fantasy world—maybe an enchanted forest with talking animals or a magical kingdom in the clouds? Your drawing will help guide our adventure!

LET'S GET STARTED

What is Canva Magic Studio?

Think of Canva Magic Studio like a super-smart robot artist who can make your coolest ideas come to life! It takes your drawings and ideas and turns them into fantastic designs in just a few minutes.

Ready to see your awesome drawing in action?

How Does it Work?

IMAGINE BIG: Think of something super fun you want to see in a design. It could be anything from a space adventure to a magical fairyland!

Create Your Masterpiece

1

SIGN UP: With a grown-up's help, make your own Canva account. It's really easy and only takes a few minutes!

2

DESCRIBE YOUR VISION: Tell Canva exactly what you want to see in your design. The more details you give, the cooler your design will be!

3

HIT CREATE: Press the magic button and watch your design come to life!

CANVA MAGIC STUDIO FEATURES

MAGIC DESIGN

What You Can Do

Create fantastic presentations and designs in seconds. Just type in your idea and choose from tons of fun templates!

Imagine you want to make a poster for your lemonade stand. Type “lemonade stand” into Magic Design, and it will show you colorful posters with lemonade, and big, fun fonts!

How to Use:

- ACCESS MAGIC DESIGN:** Find it on Canva’s homepage or in the editor.
- DESCRIBE YOUR IDEA:** Type what you want in the search bar.
- ADD IMAGES:** Click “Media” to upload or choose images.
- SEE RESULTS:** Click “See results” to view your design.
- CUSTOMIZE:** Adjust it to match your style!

MAGIC SWITCH

What You Can Do

Change your designs into different formats like summaries, blog posts, or emails!

If you create a birthday card, Magic Switch can turn it into a fun story about the birthday party, or even into an email invitation to send to friends.

How to Use:

- SELECT THE TOOL:** Click on the toolbar and pick what you need.
- TRANSFORM CONTENT:** Choose “Transform into Doc” for different formats.
- EDIT:** Make any changes you need to your new document.

MAGIC EXPAND

What You Can Do:

If you took a picture of your cat, but it's cut off at the top, Magic Expand can stretch the photo to show more of your kitty's head and ears!

How to Use:

1. **CHOOSE A PHOTO:** Pick the photo you want to change.
2. **EDIT PHOTO:** Click "Edit photo" and select "Magic Expand."
3. **ADJUST SIZE:** Drag to expand or pick a size option.
4. **APPLY:** Click "Magic Expand" to finish.

MAGIC MORPH

What You Can Do:

Add cool effects to text and images.

If you have a picture of a rainbow and want to make it sparkle, Magic Morph can add glitter and shine to make it look magical!

How to Use:

1. **OPEN A DESIGN:** Start or open any design.
2. **FIND MAGIC MORPH:** Go to "Apps" and choose "Magic Morph."
3. **DESCRIBE YOUR EFFECTS:** Type how you want the element to look.
4. **GENERATE:** Click "Magic Morph" to see the result.

MAGIC GRAB

What You Can Do:

Move and resize parts of your photos without changing the background. If you took a picture of your dog but want to move him closer to the center of the photo, Magic Grab lets you do that while keeping the park background in place!

How to Use:

1. **SELECT A PHOTO:** Pick the photo you want to edit.
2. **CLICK "EDIT PHOTO":** Choose "Magic Grab."
3. **MOVE AND RESIZE:** Drag the subject and adjust its size

MAGIC EDIT

What You Can Do:

Change parts of your photos or add new things by brushing over them and describing what you want.

If you have a photo of your room and want to add a new poster to the wall, Magic Edit lets you brush over the spot and tell it what poster to add!

How to Use:

1. **CHOOSE A PHOTO:** Pick the photo you want to edit.
2. **CLICK “EDIT PHOTO”:** Select “Magic Edit.”
3. **BRUSH OVER AREAS:** Highlight the parts you want to change.
4. **DESCRIBE CHANGES:** Type what you want to add or remove and click “Generate.”

MAGIC MEDIA

What You Can Do

Create images and short videos from text prompts.

If you want to make a picture of a space adventure, just describe it like “a spaceship with stars and aliens,” and Magic Media will create it. You can also make a short video of the spaceship zooming through space!

How to Use:

For Text to Image:

1. **OPEN CANVA:** Go to “Apps” and select “Magic Media.”
2. **DESCRIBE YOUR IMAGE:** Choose a style and aspect ratio, then click “Create your image.”

For Text to Video:

1. **OPEN CANVA:** Go to “Apps” and select “Magic Media.”
2. **DESCRIBE YOUR VIDEO:** Click “Generate video.”

MAGIC ANIMATE

What You Can Do

Add fun animations to your designs!

If you have a drawing of a jumping frog, Magic Animate can make the frog actually hop around on your screen!

How to Use:

1. **SELECT “ANIMATE”:** Click on the toolbar above the editor.
2. **CHOOSE ANIMATION:** Pick “Magic Animate” and select your style.

MAGIC WRITE

What You Can Do

Get help with writing, rewriting, and summarizing text for cool stuff like stories, blog posts, or poems.

If you wrote a short story about a dragon adventure, Magic Write can help you make it into a fun blog post or even a cool poem!

How to Use:

1. **CREATE TEXT:** Open or start a design. Find the Magic button or type / to use Canva Assistant.
2. **SELECT “MAGIC WRITE”:** Enter your text or choose from existing content to rewrite or summarize.

Cost Information

In Canva Magic Studio, you can use a bunch of cool tools for free. There are also some special tools that you can only get with a Canva Pro upgrade.

9

Make Videos, Sounds, and Pictures with One Cool Tool!

- AI Magic Tool: Runway
- Category: content creation
- What it does: helps you create video, audio and images
- Link to website: <https://runwayml.com>

Welcome to the magic of Runway, where you can create videos, audio, and images with just a few clicks!

Let's see how this tool can help you make cool projects for school or just for fun.

Before We Begin: Warm-Up Challenge!

Pick a fun theme like "Outer Space Adventures" or "Dinosaur Land". You can use Runway to make a short video, an audio clip, and an image about your chosen theme.

Quick Fun Quiz

What would you like to create?

- A video about a space mission
- An audio clip of a dinosaur roar
- An image of a magical castle

CREATE SOME MAGIC WITH RUNWAY!

1

Make Cool Videos

With Runway, you can make awesome videos from text or images, and even edit them with special features.

- **TEXT TO VIDEO:** Type a description, and Runway creates a video based on it!
Example: Type “a dragon flying over a rainbow” and watch Runway create a video with a dragon soaring through colorful skies!
- **IMAGE TO VIDEO:** Upload an image, and Runway adds motion to it.
Example: Upload a picture of your pet cat, and Runway can make it look like your cat is playing or moving around.
- **EDIT VIDEOS:** Add cool effects like removing backgrounds or slowing down parts of your video.
EXAMPLE: Make a video of a superhero by removing the background and adding new effects like super speed!

2

Create Fun Audio Clips

Runway can also help you make and clean up audio clips. Here's what it can do:

- **TEXT TO SPEECH:** Turn written text into spoken words.
Example: Type “Once upon a time, there was a magical unicorn,” and Runway will read it out loud for you!
- **CLEAN AUDIO:** Remove any background noise from your recordings.
Example: If you recorded yourself reading a story but there's a noisy fan in the background, Runway can make it sound much clearer.
- **ADD SUBTITLES:** Make sure everyone can follow along by adding subtitles to your audio clips.
EXAMPLE: If you create an audio guide on how to draw a comic, add subtitles so everyone can read along with your instructions.

3

Create And Edit Awesome Images

Use Runway to make new images or edit ones you already have.

- **TEXT TO IMAGE:** Describe what you want, and Runway creates an image for you.
EXAMPLE: Type “a magical treehouse in a giant tree” and see Runway create a beautiful image of your dream treehouse.
- **IMAGE TO IMAGE:** Take an existing image and change it with a new style or addition.
EXAMPLE: Upload a drawing of a robot and ask Runway to turn it into a robot in a superhero costume!
- **IMAGE EDITING:** Change and improve images with tools like expanding or adding colors.
EXAMPLE: Take a photo of your favorite stuffed animal and make it look even cooler by adding bright colors or new backgrounds.

Cost Information

You can start using VEED.io for free. If you want to upgrade, the Basic plan costs €13 per month.

AI MISSIONS – Let's Get Creative!

Mission 1

Space Adventure Video

Objective:

Create a short video about an adventure in space.

Instructions:

PICK A THEME: Choose “Space Adventure.”

USE RUNWAY: Make a video of astronauts exploring a new planet.

ADD EFFECTS: Use video editing tools to add cool space effects.

Mission 2

Dinosaur Roar Audio Clip

Objective:

Make a roaring sound clip of a dinosaur.

Instructions:

RECORD A ROAR: Use Runway to create a roar sound from text.

CLEAN UP: Remove any background noise to make the roar sound super clear.

ADD SUBTITLES: Show the name of the dinosaur and the roar description

Mission 3

Magical Castle Image

Objective:

Create a magical castle image.

Instructions:

DESCRIBE YOUR CASTLE: Type a description of a magical castle.

GENERATE THE IMAGE: Use Runway to make the castle look amazing.

EDIT: Add colors and expand the image to show more details.

BONUS CHALLENGE: Ultimate Creator!

Combine videos, audio clips, and images into one big project. See how many creative things you can make with Runway and share them with your friends!

Runway makes it easy to create and edit amazing videos, audio, and images. Let your imagination run wild and have fun making your projects!

Prompts to Get You Started

PROMPT 1

Create a video of a cute puppy playing in a park with colorful balloons.

PROMPT 2:

Draw a magical castle with a rainbow and friendly dragons.

PROMPT 3:

Create a video of a friendly robot teaching kids how to do a simple science experiment.

Ready to get started?

Dive into Runway and start creating your awesome projects today!

10

Create Your AI Avatar

- AI Magic Tool: HeyGen
- Category: video generation and AI avatars
- What it does: helps you create AI avatars
- Link to website: <https://heygen.com>

HeyGen is another amazing tool that helps you make super cool AI avatars for your videos.

Imagine having a virtual friend who can talk, speak in different languages, or even make your old photos come to life! Let's see how HeyGen can make your videos awesome!

Before We Begin: Warm-Up Challenge!

Imagine you could create a cool AI avatar that looks and sounds like you. What would your avatar do? Think about how your avatar could help you with a school project, share a fun story, or even speak in different languages. Take a moment to picture your avatar and what amazing things it could do with HeyGen!

Quick Fun Quiz

If you could use HeyGen to create an avatar, what would you choose?

An avatar that looks just like you for a fun video

An avatar that speaks in different languages for a global project

A talking photo of your favorite pet or a historical figure

LET'S GET STARTED!

What Can HeyGen Do?

1

Make an Avatar that Looks Just Like You!

- **WHAT IT DOES:** You can create an AI version of yourself, like a digital twin that looks and sounds like you!
EXAMPLE: Imagine making a video for your school project about space. You can create an avatar that looks like you, wearing a space suit, and have it explain cool facts about planets!
- **HOW TO USE IT:** Record a video of yourself with good lighting and send it to HeyGen. They'll make a digital version of you that you can use in your videos.

2

Speak in Different Languages!

- **WHAT IT DOES:** You can record your video in one language and then make it speak in over 40 different languages!
EXAMPLE: If you make a video about your favorite book in English, you can use HeyGen to translate it into Spanish or French, so your friends who speak those languages can enjoy it too!
- **HOW TO USE IT:** Upload your video to HeyGen, pick the language you want, and let HeyGen do the translating. It's a great way to share your videos with friends from around the world!

3

Make Any Photo Talk!

- **WHAT IT DOES:** You can make any photo come to life and speak with a human voice.
EXAMPLE: If you have a photo of your favorite pet or a picture from a history book, you can make it talk and explain fun facts or tell a story about it!
- **HOW TO USE IT:** Upload a photo to HeyGen, add a script for what you want the photo to say, and HeyGen will animate it. Your old family photo or historical figure can become a talking video!

Cost Information

HeyGen offers a free plan with limited features, and paid plans start at \$24 per month.

AI MISSIONS – Let's Get Creative!

Mission 1

Create a Video About Your Favorite Subject!

Objective:

Make a video using your own avatar.

Instructions:

1. **CHOOSE A SUBJECT:** Pick a topic you love, like dinosaurs or video games.
2. **MAKE YOUR AVATAR:** Use HeyGen to create an avatar that looks like you, and have it talk about your favorite subject.
3. **RECORD YOUR SCRIPT:** Write a short script about fun facts or tips about your topic, and let your avatar read it in the video.

Mission 2

Create a Video in one language

Objective:

Make a video in one language and translate it into another.

Instructions:

1. **CREATE A VIDEO:** Record a video about a class project, like a science experiment or a historical event.
2. **TRANSLATE IT:** Use HeyGen to translate the video into another language, so more people can understand it.
3. **SHARE YOUR VIDEO:** Show your translated video to your classmates or friends who speak different languages.

Mission 3

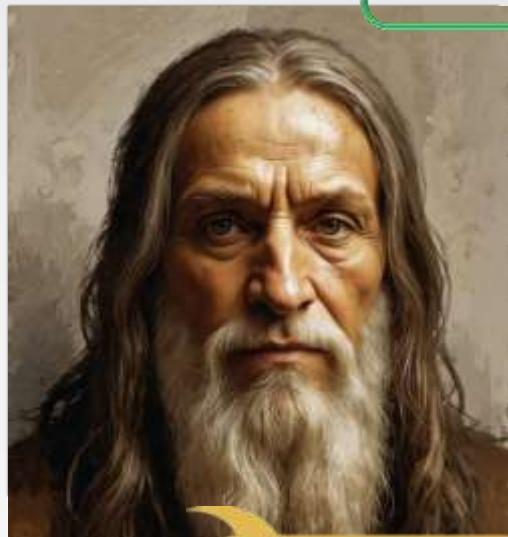

Bring a Photo to Life for a Fun School Presentation!

Objective:

Make an old photo or picture talk.

Instructions:

- PICK A PHOTO:** Choose a photo from a school project, like a historical figure (e.g., Napoleon, Leonardo da Vinci) or a pet.
- ANIMATE IT:** Use HeyGen to make the photo talk and explain interesting things about it.
- ADD A SCRIPT:** Write a fun script for what the photo will say in the video.

I'm Henry. I'm here to talk about the Mona Lisa...

With HeyGen, creating fun and engaging videos is a breeze. You can make avatars, translate videos, and even animate photos.

Enjoy bringing your ideas to life and sharing them with everyone!

11

One Cool AI Tool for All Your Creative Ideas

- AI Magic Tool: Simplified
- Category: AI writing and design
- What it does: helps you create, design and plan your content
- Link to website: <https://simplified.com/>

Welcome to Simplified, the super cool AI tool that helps you create, design, and plan all your fun projects in one place!

Whether you're making a poster for a school event or creating a video about your favorite hobby, Simplified makes it easy and exciting. Let's dive into what you can do with it!

Before We Begin: Warm-Up Challenge!

Imagine you're planning an awesome project or event. What kind of content would you like to create? Would it be a cool poster, a fun video, or maybe an exciting social media post? Take a moment to imagine your ideal project and how you'd use Simplified to make it amazing!

Quick Fun Quiz

If you could create something with Simplified, what would you choose?

- A poster with exciting colors and fun designs
- A video with cool effects and background music
- A social media post with clever captions and images

LET'S GET STARTED!

1

AI Writer

- **WHAT IT DOES:** Helps you write anything you need, like stories, social media posts, or even fun descriptions for your videos.
EXAMPLE: If you have a school project about dinosaurs, you can use the AI Writer to help you come up with a cool and informative description. Or, if you're writing a letter to a friend about your weekend adventures, the AI can help make it sound awesome!
- **HOW TO USE IT:** Go to the AI Writer section, type or paste what you want to write about, and let the AI help you create the perfect text.

2

AI Design

- **WHAT IT DOES:** Helps you design posters, flyers, and pictures with fun templates. You can customize them with colors, fonts, and cool effects.
EXAMPLE: If you need to make a poster for your science fair project, you can use AI Design to choose a template and add images of your experiment. Or, if you're designing a thank-you card for your teacher, you can pick fun designs and add your personal touch.
- **HOW TO USE IT:** Pick a template or start from scratch, add your images and text, and customize it to look just right.

3

AI Video

- **WHAT IT DOES:** Helps you create awesome videos with cool effects, captions, and background music.
EXAMPLE: If you made a video about your favorite hobby, like drawing or playing a game, you can use AI Video to add captions and background music. Or, if you're making a video for a class project, you can use special effects to make it look more exciting!
- **HOW TO USE IT:** Upload your video, add captions and music, use effects to make it pop, and then export your final video.

4

Social Media AI

1. **WHAT IT DOES:** Helps you plan and schedule posts for social media, and you can even manage multiple accounts from one place. EXAMPLE: If you're running a class blog or sharing your art on social media, you can use social media AI to schedule your posts and keep everything organized. You can also create and edit posts easily.
2. **HOW TO USE IT:** Connect your social media accounts, plan and schedule your posts, and create cool designs and texts for your updates.

Cost Information

Simplified offers a free trial and five pricing editions ranging from \$14.99 to \$30 per month.

AI MISSIONS – Let's Get Creative!

Mission
1

Create a Cool Poster for a
School Project!

Objective:

Make a video about your favorite superhero adventure!

Instructions:

1. **PICK YOUR HERO:** Decide who your superhero is. It could be someone from a comic book or someone you invent.
2. **WRITE A MINI STORY:** Write a short story about your superhero's big adventure.
3. **CREATE THE VIDEO:** Use Fliki to turn your story into a video. Choose a superhero avatar, add action-packed sounds, and make your hero's adventure come alive!

Mission
2

Write a Fun Story About
Your Summer Vacation!

Objective:

Use AI Writer to create a fun and descriptive story about your summer adventures.

Instructions:

1. **WRITE YOUR STORY:** Think about the coolest things you did this summer, like visiting a zoo or going on a treasure hunt.
2. **USE AI WRITER:** Type or paste your story into the AI Writer, and let the AI help you add exciting details and descriptions.

Mission 3

Make a Fun Video About Your Favorite Hobby!

Objective:

Use AI Video to create an engaging video about something you love doing.

Instructions:

1. **OBJECTIVE: CREATE YOUR VIDEO:** Record clips of you doing your favorite hobby, like painting or playing a game.
2. **USE AI VIDEO:** Upload your clips, add captions and music, and use effects to make your video look amazing.

Simplified, you can make all your projects and ideas come to life in a fun and easy way.

Enjoy Creating Your Amazing Content!

12

Turn Long Videos into Fun Short Clips

- AI Magic Tool: Multiple
- Category: content creation
- What it does: helps you create fun videos
- Link to website:

<https://www.clipsai.com/> <https://2short.ai/>

<https://www.getmunch.com/> <https://piactory.ai/>

Have you ever made a long video and wished you could turn it into shorter, super fun clips

Well, with the right tools, you can! Let's explore how to take your long videos or stories and turn them into exciting short videos that everyone will love.

Before We Begin: Warm-Up Challenge!

Imagine you have a long video about your favorite science experiment or an awesome school project. How cool would it be to create short clips from that video, each showing a fun part of your experiment or project?

Quick Fun Quiz

What long video or story would you like to make into short clips?

A science experiment you did at school

A story about a magical creature from your favorite Book

A day at the zoo with your family

LET'S GET STARTED!

How Can We Do This?

CHOOSE YOUR CONTENT: Pick a long video or a story you like. It could be about a science experiment, a fun school project, or an exciting adventure.

Use an AI Tool to Help:

1

CLIPS AI: This tool helps you find the best parts of your video and makes short clips from them. Perfect for creating exciting snippets!

2

SHORT: Specially made for YouTube Shorts, this tool finds the coolest parts of your video and turns them into short clips for YouTube.

3

MUNCH: This tool is great for creating and sharing videos from long content. It helps you choose the most interesting parts and makes them easy to share.

4

PICTORY: Turn your long text or video into cool short videos. Great for when you have a lot of written content or want to add a personal touch to your clips.

HOW TO USE THESE TOOLS:

Clips AI

- **FIND FUN MOMENTS:** Clips AI helps you pick out the most exciting parts of your video.
- **CREATE SHORT CLIPS:** Quickly make short clips that are easy to share with friends.
- **READY-MADE TITLES:** It even helps you come up with catchy titles for your clips!

2 Short

- **PERFECT FOR YOUTUBE:** This tool is great if you want to make YouTube Shorts.
- **COOL FEATURES:** It offers fun features like animated subtitles and special effects.

Munch

- **ALL-IN-ONE TOOL:** Munch handles editing, captions, and publishing all in one place.
- **TRENDS:** It helps find the best parts of your video to make sure they get noticed.

Pictory

- **TEXT TO VIDEO:** Turn your written stories or articles into videos.
- **CUSTOM BRANDING:** Make your videos look just the way you want with custom styles.

AI MISSIONS- Let's Get Creative

Mission
1

Science Adventure

Objective:

Create short clips from a long video about a science experiment.

Instructions:

- **WATCH YOUR SCIENCE VIDEO:** Pick out the most exciting moments.
- **CREATE CLIPS:** Use Clips AI or Pictory to make short, fun clips.
- **SHARE AND SHOW:** Share these clips with your friends and family!

Mission 2

Magical Creature Story

Objective:

Make short videos from a story about magical creatures.

Instructions:

- **CHOOSE YOUR FAVORITE PARTS:** Find the most magical and exciting parts of your story.
- **MAKE SHORT VIDEOS:** Use Munch or 2short to create short, fun videos.
- **GET CREATIVE:** Add cool effects and share your magical videos with others!

Mission 3

Zoo Adventure

Objective:

Create short videos from a long video of your zoo visit.

Instructions:

- **PICK THE BEST MOMENTS:** Choose the funniest or cutest animal clips.
- **TURN INTO SHORTS:** Use your favorite tool to make engaging short videos.
- **SHARE YOUR FUN:** Show your zoo adventure clips to your friends and family!

Ready to turn your long videos into awesome short clips?
Check out these tools and let your creativity shine!

Make Amazing Art with NightCafe Studio

- AI Magic Tool: NightCafe Studio
- Category: Image generation
- What it does: helps you create cool visuals and pictures
- Link to website: <https://creator.nightcafe.studio/>

Are you ready to explore a fantastic new way to bring your imagination to life?

Before We Begin: Warm-Up Challenge!

Grab a pencil and a paper. Draw the coolest thing you can imagine. A dragon riding a skateboard? A unicorn DJ? Your sketch will be our secret weapon later!

Quick Fun Quiz

If you could design a picture of a magical creature, which would it be?

A dragon with rainbow scales that change color like a mood ring

A fluffy cloud unicorn leaving a trail of cotton candy

A phoenix made of colorful fireworks exploding in the

LET'S GET STARTED!

What is NightCafe Studio?

Imagine having a super-smart robot friend who can paint anything you describe. That's NightCafe Studio! It turns your wildest ideas into incredible digital art in seconds! Remember that awesome sketch you made at the beginning? It's time to bring it to life!

How Does it Work?

Dream Big: Start by imagining something truly amazing you'd love to see in a picture. It could be anything from a magical forest to a futuristic city!

Create Your Masterpiece

SIGN UP: With a grown-up's help, create your own account. It's super easy and only takes a few minutes!

PICK A STYLE: Choose the art style you like. Do you want your picture to look like a comic book, a painting, or something else?

DESCRIBE YOUR VISION: Tell NightCafe Studio exactly what you want to see in your picture. The more detailed your description, the better your picture will turn out!

SELECT YOUR QUANTITY: Decide how many pictures you want to create. You can make a whole gallery of your favorite ideas!

HIT CREATE: Press the magic button and watch as your masterpiece comes to life right before your eyes!

Extra Fun Features

ANIMATE YOUR ART:

Transform some of your pictures into short, captivating videos. See your creations come to life and move around!

ENHANCE YOUR ARTWORK:

Make your picture larger and sharper. Perfect for showing off your masterpiece in all its glory!

Cost Information

You can explore NightCafe Studio for free and create a few amazing pictures. If you're hooked and want to create more, ask a grown-up to help you purchase additional credits.

They offer both monthly and quarterly subscription plans, starting from \$5.99/month for 100 credits.

AI MISSIONS – Let's Get Creative!

Mission 1

Magical Forest Adventure

Objective:

Create a magical forest scene using NightCafe Studio.

Instructions:

- **BRAINSTORM YOUR IDEA:** Think about what makes a forest magical. Do you imagine glowing plants, friendly fairies, or talking animals?
- **SKETCH YOUR SCENE:** Draw a quick sketch of your magical forest on paper. Include any special features like sparkling streams or hidden fairy houses.
- **DESCRIBE AND CREATE:** Visit [NightCafe Studio](#) and use your sketch to describe your magical forest.
- **SHARE:** Show your magical forest to your family and friends. Ask them what they like best about your artwork!

Mission 2

Magical Creature Encounter

Objective:

Design a picture of an outer space adventure.

Instructions:

- **PLAN YOUR SPACE JOURNEY:** Imagine what you'd see on a space adventure. Are there colorful planets, shiny stars, or friendly aliens?
- **DRAW YOUR SPACE SCENE:** Sketch your outer space adventure. Include elements like rockets, planets, or alien creatures.
- **DESCRIBE AND CREATE:** Go to NightCafe Studio and use your sketch to describe your space scene.
- **ANIMATE:** Use NightCafe Studio's animation feature to make parts of your space scene move. Show your space explorer's diary to everyone and see their reactions!
- **EXPLORE:** See how Midjourney brings your magical creature to life and share your creation with everyone!!

Mission 3

Future Robot Design

Objective:

Create a futuristic robot with NightCafe Studio.

Instructions:

- **DESIGN YOUR ROBOT:** Think about what a robot from the future might look like. Does it have cool gadgets, glowing lights, or unique features?
- **DRAW YOUR ROBOT:** Sketch your futuristic robot, adding any special details like laser eyes or jet packs.
- **DESCRIBE AND CREATE:** Visit [NightCafe Studio](#) and use your drawing to describe your robot.
- **ENHANCE:** Make your robot picture larger and clearer. Show your creation and ask your family what they think about your robot's design!

BONUS CHALLENGE: Mash-Up Mania!

Combine elements from all three missions to create the ultimate fantasy scene. A magical forest... in space... with robot fairies? The crazier, the better!

REMEMBER: There are no mistakes in art, only happy accidents! Let your imagination run wild and have fun creating with NightCafe Studio!

**Ready to start these missions?
Dive into NightCafe Studio and
let your creativity shine!**

Prompts to Get You Started

PROMPT 1

Create a magical forest with glowing plants and friendly fairies. Add a sparkling stream and small fairy houses hidden in the trees.

PROMPT 2:

Design a fun space scene with a colorful planet, a shiny spaceship flying around, and a friendly alien on a moon.

PROMPT 3:

Make a picture of a cool robot from the future with shiny metal parts and glowing lights. Give it fun features like jet packs and laser eyes.

Everything You Need for Cool AI Videos is Here!

- AI Magic Tool: Fliki
- Category: video creation
- What it does: helps you create cool videos from text, voice and AI avatars
- Link to website: <https://fliki.ai/>

Are you ready to make awesome videos using just your ideas and a little bit of magic from Fliki?

Fliki is a cool AI tool that helps you turn your stories and ideas into fantastic videos with just a few clicks. Let's explore how you can use it and have some fun creating your own videos!

Before We Begin: Warm-Up Challenge!

Imagine you're a movie director for a day. What kind of fun video would you like to make? Think about your favorite story or adventure.

Would it be about superheroes, magical creatures, or maybe a day in the life of your pet? Take a minute to dream up your awesome video idea!

Quick Fun Quiz

If you could make a cool video with Fliki, what would it be about?

A space adventure with talking aliens

A magical forest full of friendly animals

A superhero saving the day in your neighborhood

LET'S GET STARTED!

Fun Examples with Fliki's Features:

1

Text to Video

- **WHAT IT DOES:** Fliki turns your written stories into videos with cool visuals and sounds.
EXAMPLE: Imagine you write a story about "The Great Space Race." Fliki can turn your story into a video where astronauts zoom through space, race against each other, and explore new planets.
- **HOW TO USE IT:** Write your story, choose an AI voice (like a space captain or an alien), pick images and clips from Fliki's library, and let Fliki create a video that brings your space race to life!

2

Text to Speech

- **WHAT IT DOES:** Fliki can read out loud the text you type, using different voices.
EXAMPLE: If you have a story about "The Magical Forest Adventure," Fliki can read it out loud with a fun, magical voice or even a deep, mysterious voice to make your story sound exciting.
- **HOW TO USE IT:** Type your text, pick a voice from Fliki's list (like a friendly wizard or a sneaky fox), and let Fliki turn your text into a spoken story.

3

AI Avatar

- **WHAT IT DOES:** Fliki lets you add animated characters (avatars) to your videos.
EXAMPLE: If you're making a video about "A Day in the Life of a Superhero," you can choose a superhero avatar to talk and act out your story. The avatar can have cool superhero moves and expressions.
- **HOW TO USE IT:** Select an avatar that fits your story, like a superhero or a magical creature and use it to act out parts of your video.

4

Voice Cloning

- **WHAT IT DOES:** Fliki can make a copy of your voice to use in videos.
EXAMPLE: Record your voice saying, "Hello, welcome to my dinosaur adventure!" and Fliki can create a digital version of your voice to use in your video about dinosaurs.
- **HOW TO USE IT:** Record a short sample of your voice, let Fliki clone it, and then use your voice clone in your video or audio projects.

5

Convert Text to Video

- **WHAT IT DOES:** Turn your written text, like blog posts or tweets, into a video.
EXAMPLE: If you write a blog post about “The Best School Projects,” you can give Fliki the link, and it will turn your blog into a video with fun visuals and text.
- **HOW TO USE IT:** Paste the link to your blog post or tweet, and Fliki will create a video with images and sounds that match your text.

Cost Information

Fliki offers a free plan and paid options starting at \$21/month for Standard and \$66/month for Premium.

AI MISSIONS – Let's Get Creative!

Mission 1

Create a Heroic Adventure Video!

Objective:

Make a video about your favorite superhero adventure!

Instructions:

1. PICK YOUR HERO: Decide who your superhero is. It could be someone from a comic book or someone you invent.
2. WRITE A MINI STORY: Write a short story about your superhero's big adventure.
3. CREATE THE VIDEO: Use Fliki to turn your story into a video. Choose a superhero avatar, add action-packed sounds, and make your hero's adventure come alive!

Mission 2

Make a Magical School Project Video!

Objective:

Create a video about a fun school project or topic you like.

**Instructions:**

1. CHOOSE YOUR PROJECT: Pick a project, like "Building a Volcano" or "Exploring Outer Space."
2. WRITE A SCRIPT: Write a script about what you did or learned in your project.
3. CREATE THE VIDEO: Use Fliki to turn your script into a video. Pick an avatar to explain your project and add visuals and sounds to make it engaging.

Mission 3

Tell a Fun Story with AI!

Objective:

Create a video about a fun school project or topic you like.

Instructions:

1. WRITE A STORY: Come up with a fun story idea, like "The Lost Treasure of Pirate Island."
2. RECORD YOUR STORY: Write and record your story. Choose an AI voice to narrate it.
3. MAKE THE VIDEO: Use Fliki to turn your story into a video. Pick an avatar and add images or clips that match your story.

With Fliki, you can make videos that are fun, engaging, and full of imagination.

Have a great time exploring and creating with your new AI friend!

15

Become a Designer Superhero with Galileo AI

- AI Magic Tool: Galileo AI
- Category: video generation and AI avatars
- What it does: helps you create cool AI designs
- Link to website: <https://www.usegalileo.ai/explore>

Galileo AI is like having a magic wand for designing cool apps and websites.

You can create awesome designs in just seconds—no art classes needed!

Before We Begin: Warm-Up Challenge!

Imagine you could use Galileo AI to design something amazing.

What would you create? Think about designing a fun app, a cool website, or even turning your own drawing into a real design. Picture your ideal project and what features you'd include. Ready to see your ideas come to life?

Quick Fun Quiz

If you could use Galileo AI for your project, what would you choose?

Design an app for a magical adventure game

Create a website for your favorite hobby, like baking or gaming

Turn your own drawing into a cool design for a school project

LET'S GET STARTED!

What Can Galileo AI Do?

1

Turn Words into Designs!

- **WHAT IT DOES:** You can describe what you want in words, and Galileo AI will turn it into a design for an app or a website!
EXAMPLE: If you want to design an app for tracking your pet's daily activities, you can describe it—like having a page to log meals, playtime, and vet visits—and Galileo AI will make it look super cool!
- **HOW TO USE IT:** Go to Galileo AI and type in what you want, like "a page for a superhero app with cool colors and big buttons". It'll create a design based on your description.

2

Turn a Picture into a Design!

- **WHAT IT DOES:** You can upload a picture, and Galileo AI will turn it into a beautiful design for your app or website.
EXAMPLE: If you have a drawing of your dream treehouse, upload it to Galileo AI, and it'll help turn that drawing into a real design for a fun treehouse-themed website!
- **HOW TO USE IT:** Upload your drawing or photo, like a sketch of a school project, and describe what you want. Galileo AI will turn it into a design you can use.

3

Explore Cool Design Ideas!

- **WHAT IT DOES:** You can look at lots of designs made by other people for inspiration. It's like flipping through a design magazine!
EXAMPLE: If you're designing a website for your favorite hobby, like magic tricks, you can see how others have designed similar websites and get ideas for colors and layouts.
- **HOW TO USE IT:** Visit the Explore section on Galileo AI to see different designs. Find ones you like and use those ideas for your own project!

Cost Information

Eleven Labs offers a free plan for up to 10,000 characters per month, while paid plans start at \$5/month for the Starter plan and \$11/month for the Creator plan.

AI MISSIONS – Let's Get Creative!

Mission 1

Design Your Dream App!

Objective:

Create a design for an app about something you love.

Instructions:

1. **CHOOSE A THEME:** Pick something you're excited about, like a game where you train magical pets.
2. **DESCRIBE IT:** Write or type out what you want in the app, like a page where you can feed and play with your pets.
3. **DESIGN IT:** Use Galileo AI to turn your description into a design for your app.

Mission 2

Create a Website for Your Favorite Hobby!

Objective:

Design a website about something you enjoy.

Instructions:

1. **WRITE YOUR SCIENCE REPORT:** Summarize your science project or experiment in a written report.
2. **DESIGN YOUR WEBSITE:** Describe what you want on the website, such as a page for recipes, pictures of cupcakes, and a section for baking tips.
3. **GENERATE YOUR DESIGN:** Use Galileo AI to make your website design look yummy and fun!

Mission 3

Turn Your Drawing into a Design!

Objective:

Design a website about something you enjoy.

Instructions:

1. **UPLOAD YOUR DRAWING:** Choose a drawing you made, like a sketch of a dream playground.
2. **DESCRIBE YOUR DESIGN:** Tell Galileo AI what you want, like adding a slide, swings, and a treehouse.
3. **CREATE YOUR DESIGN:** Let Galileo AI turn your drawing into a fun design.

With Galileo AI, designing cool apps and websites is super easy and fun.

**Get started with your designs today
and let your creativity shine!**

Create Any Image You Can Think Of

- AI Magic Tool: Midjourney
- Category: Image generation
- What it does: helps you create cool visuals and pictures
- Link to website: <https://www.midjourney.com/>

Imagine creating any picture you can think of in just 40 seconds or less!

With Midjourney, you can turn your wildest dreams into stunning digital art instantly.

Before We Begin: Warm-Up Challenge!

Grab a paper and a pencil.
Sketch something amazing!
Maybe it's a superhero cat
saving a city or a magical
garden where flowers sing.

Your sketch will be our
inspiration for creating the
perfect image!

Quick Fun Quiz

If you could design an extraordinary scene, which would you pick?

- A dragon playing a giant game of chess with a knight
- A pirate ship sailing through a sea of jellybeans
- A mystical phoenix soaring over a glowing crystal lake

LET'S GET STARTED!

What is Midjourney?

Midjourney is like having a super-smart artist that can turn any idea you describe into amazing pictures. You provide the details, and it creates beautiful images in no time!

How Does it Work?

Dream Big: Think of something fantastic you'd love to see in a picture. It could be a thrilling adventure or a cartoon scene!

Create Your Masterpiece

1

SIGN UP: With a grown-up's help, set up your Midjourney account. It's simple and fast!

2

PICK A STYLE: Decide how you want your artwork to look. Do you want it to be cartoonish, like a comic book, or realistic, like a painting?

3

DESCRIBE YOUR VISION: Tell Midjourney exactly what you want to see. The more details you provide, the better your picture will turn out!

4

GENERATE YOUR ART: Hit the magic button and watch your idea transform into a stunning image!

MIDJOURNEY STEPS

Step
1

Sign Up for Midjourney

1. **GO TO THE WEBSITE:** Open your browser and go to [Midjourney](#).
2. **CREATE AN ACCOUNT:** Sign up using your email address.
3. **CHOOSE A PLAN:** Start with the BASIC PLAN for \$10/month to get around 200 pictures. This is great for beginners.

Step
2

Join the Midjourney Discord

1. **DOWNLOAD DISCORD:** If you don't have it already, download the Discord app or go to Discord's website.
2. **JOIN THE MIDJOURNEY SERVER:** After signing up on the Midjourney website, you'll get a link to join their Discord server.

Step
3

Start Creating Pictures

1. **ACCESS THE BOT:** In the Midjourney Discord server, look for channels like #newbies or #beginner.
2. **TYPE A COMMAND:** To create an image, type /imagine followed by a description of what you want. For example, /imagine a cute puppy playing in the park.
3. **WAIT FOR THE MAGIC:** The bot will take a few moments to generate your image.

Tips for Parents

WATCH AND HELP:

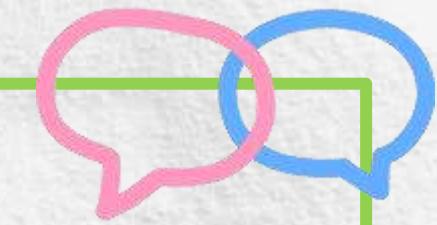

Help your child type prompts and guide them through the process.

DISCUSS:

Talk about the images created and encourage creativity.

UPGRADE WISELY:

Start with the Basic Plan and upgrade if you find you need more features.

Cost Information

Midjourney offers different plans for making cool AI pictures:

- **BASIC PLAN:** \$10/month for around 200 pictures.
- **STANDARD PLAN:** \$30/month for about 1000 pictures.
- **PRO PLAN:** \$60/month with secret mode for private pictures.
- **MEGA PLAN:** \$120/month for unlimited pictures.

AI MISSIONS - Let's Get Creative!

Mission
1

Superhero Showdown

Objective:

Design an epic scene featuring your favorite superhero in action.

Instructions:

- **BRAINSTORM YOUR HERO:** Imagine a superhero doing something incredible. Are they battling villains, rescuing citizens, or exploring a new world?
- **SKETCH YOUR SCENE:** Draw your superhero in action, adding details like cool gadgets or superpowers.
- **DESCRIBE AND CREATE:** Use your sketch to create a detailed prompt in Midjourney.
- **SHARE:** Share your superhero scene with family and friends and ask them what they think of your hero's adventure!

Mission 2

Magical Creature Encounter

Objective:

Create a fantastical scene with a magical creature of your choice.

Instructions:

- **CHOOSE YOUR CREATURE:** Think about a magical creature you'd love to see. Is it a unicorn, a dragon, or something entirely new?
- **DRAW YOUR CREATURE:** Sketch your magical being in its enchanted setting, adding any special features like sparkling wings or glowing eyes.
- **DESCRIBE AND CREATE:** Use your drawing to craft a detailed prompt in Midjourney.
- **EXPLORE:** See how Midjourney brings your magical creature to life and share your creation with everyone!!

Mission 3

Time Travel Adventure

Objective:

Design a scene that takes place in a unique time period or future world.

Instructions:

- **IMAGINE YOUR TIME TRAVEL:** Picture a scene from a different era or a future world. Are there ancient dinosaurs or futuristic flying cars?
- **SKETCH YOUR SCENE:** Draw your time-travel adventure, including any historical or futuristic elements.
- **DESCRIBE AND CREATE:** Use your drawing to create a detailed prompt in Midjourney.
- **ENHANCE:** Make your time-travel scene larger and clearer and share it with your family to see their reactions!

Prompts to Get You Started

PROMPT 1:

Create an epic superhero scene with a hero in action, using cool gadgets and powers. The setting is a bustling city under attack.

PROMPT 2:

Design a magical forest with a unicorn exploring a sparkling stream and glowing flowers. Add friendly creatures and enchanted details.

PROMPT 3:

Make a picture of a futuristic city with flying cars and robots. Include a time-travel portal and lots of bright, futuristic colors.

**Ready to start
your creative adventure?**

Explore Midjourney

and let your imagination shine!

Make Awesome Videos Super-Fast!

- AI Magic Tool: OpusClip
- Category: short video creation
- What it does: helps you create short videos from long videos
- Link to website: <https://www.opus.pro>

Ready to turn your long videos into awesome short clips?

OpusClip is a fantastic AI tool that helps you take a big video and chop it into fun, engaging short videos. Perfect for sharing on social media or for school projects! Let's dive into how you can use it and have some fun while you're at it!

Before We Begin: Warm-Up Challenge!

Imagine you're a movie director for a day. What kind of fun video would you like to make? Think about your favorite story or adventure.

Would it be about superheroes, magical creatures, or maybe a day in the life of your pet? Take a minute to dream up your awesome video idea!

Quick Fun Quiz

If you could make a video about anything, what would you choose?

A superhero adventure

A magical creature story

A day in the life of my pet

LET'S GET STARTED!

What Can OpusClip Do?

1

AI Magic Movie Maker

- **WHAT IT DOES:** OpusClip watches your long video and picks out the best and most exciting parts. It then turns these highlights into short, fun videos.
EXAMPLE: Imagine you have a 10-minute video of your science experiment on how volcanoes erupt. OpusClip can find the most exciting moments (like the eruption itself) and turn them into short clips that are perfect for sharing.
- **HOW TO USE IT:** Upload your long video, and OpusClip will automatically find the best parts to make quick, interesting clips.

2

Popularity Score

- **WHAT IT DOES:** OpusClip gives each short video a “virality score”, which tells you how likely it is to become popular.
EXAMPLE: If you make a short clip of your amazing dance routine, OpusClip can tell you how likely it is to be a hit on TikTok or Instagram.
- **HOW TO USE IT:** After creating your short clips, check the virality score to see which ones might be the most popular.

3

AI Co-Pilot

- **WHAT IT DOES:** This feature lets you choose specific parts of the video to clip based on keywords or timeframes. EXAMPLE: If you have a long video of your art project, you can use AI Co-Pilot to find and clip just the part where you paint the coolest details.
- **HOW TO USE IT:** Search for specific sections or keywords in your video to create clips that show exactly what you want.

4

Extra Fun Clips

- **WHAT IT DOES:** This feature lets you choose specific parts of the video to clip based on keywords or timeframes. EXAMPLE: If you have a long video of your art project, you can use AI Co-Pilot to find and clip just the part where you paint the coolest details.
- **HOW TO USE IT:** Search for specific sections or keywords in your video to create clips that show exactly what you want.

5

Cool Layouts

- **WHAT IT DOES:** Automatically changes how your video looks by switching between different layouts like full-screen or side-by-side.

EXAMPLE: If you have a video showing you and your friend working on a science project, OpusClip can switch between showing both of you and focusing on just one of you at a time.

- **HOW TO USE IT:** Let OpusClip automatically adjust the video layout to make it more dynamic and interesting.

6

Who's Talking?

- **WHAT IT DOES:** Keeps the person speaking centered in the video frame, making it look super professional.

EXAMPLE: If you have a video of you explaining your favorite book, OpusClip makes sure you stay centered in the video, so everyone can see you clearly.

- **HOW TO USE IT:** OpusClip will keep the main speaker (you) in the center of the frame as you talk.

Cost Information

OpusClip offers a free plan with 60 processing minutes per month, while paid plans start at \$9/month for the Starter plan and \$19/month for the Pro plan.

AI MISSIONS – Let's Get Creative!

Mission 1

Create a Science Project Short Clip!

Objective:

Turn a long video of your science project into a fun short clip.

Instructions:

1. Record Your Project: Film your science experiment, like making a homemade volcano.
2. Use OpusClip: Upload the video and let OpusClip find the best moments, like the eruption.
3. MAKE IT FUN: Add captions and dynamic layouts to highlight the cool parts of your experiment.

Mission 2

Make a Magical School Project Video!

Objective:

Create a short video from a long clip of you Working on an art project.

Instructions:

1. FILM YOUR ART PROJECT: Record yourself drawing or painting a cool picture.
2. USE OPUSCLIP: Upload the video and select the best clips, like when you add the final touches.
3. ADD EXTRAS: Use B-roll clips to show your art supplies or your workspace.

Mission 3

Make a Fun Family Video!

Objective:

Create a short, exciting video from a long family event clip.

Instructions:

1. RECORD A FAMILY EVENT: Film something fun, like a family game night or a birthday party.
2. USE OPUSCLIP: Upload the video and let it find the best moments, like funny reactions or big surprises.
3. ENHANCE YOUR VIDEO: Use captions and layout changes to highlight the most fun parts.

With OpusClip, you can turn your long videos into super cool short clips that are perfect for sharing with friends, family, or even your classmates.

Have fun creating and sharing your videos!

18

Create Fun Presentations

- AI Magic Tool: Tome
- Category: Presentations and design
- What it does: helps you create awesome visuals and presentations
- Link to website: <https://tome.app/>

Have you ever wished you could make a cool presentation in just seconds? With Tome, you can!

This super-smart tool helps you create amazing presentations quickly and easily.

Before We Begin: Warm-Up Challenge!

Grab a paper and some crayons or markers. Draw what you'd like to present. Maybe it's about your favorite hobby, a fun school project, or an adventure story! Your drawing will help us set up the perfect presentation.

Quick Fun Quiz

If you could make a presentation about anything, what would it be?

A magical world of dinosaurs

A day in the life of your favorite superhero

A trip to an outer space amusement park

LET'S GET STARTED!

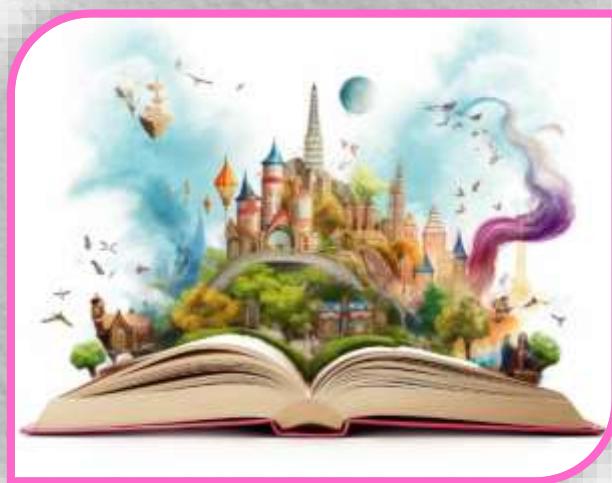

What is Tome?

Tome takes your ideas and turns them into fun slides with pictures and text, so you can impress your friends and teachers.

How Does it Work?

THINK OF YOUR PRESENTATION:

Imagine a topic that excites you. It could be about a science project, a fun book you read, or an exciting place you want to visit.

Create Your Presentation

1

SIGN UP: Ask a grown-up to help you create your Tome account. It's quick and easy!

2

CHOOSE A STYLE: Pick how you want your presentation to look. Do you want it colorful and fun, or more classic and cool?

3

DESCRIBE YOUR IDEA: Tell Tome what you want in your presentation. Include the main points, the style of images, and any special touches.

4

MAKE IT HAPPEN: Press the magic button, and watch Tome create your slides with text and images!

Extra Fun Features:

TEMPLATES:

Use ready-made templates for school projects, book reports, or creative presentations.

IMAGES:

Need unique images? Use AI to create custom pictures based on your prompts.

TEXT:

Highlight text to make it bold, italic, or underlined. You can also change the font size and color.

SLIDES:

Click the “Add Slide” button to create a new page in your story or presentation.

VOICE:

Record your voice to narrate the story. Click on the microphone icon to start recording.

Cost Information

Tome has a free version that's great for getting started. If you make lots of presentations, the Pro version for \$8 gives you more credits and extra features.

AI MISSIONS - Let's Get Creative!

Mission
1

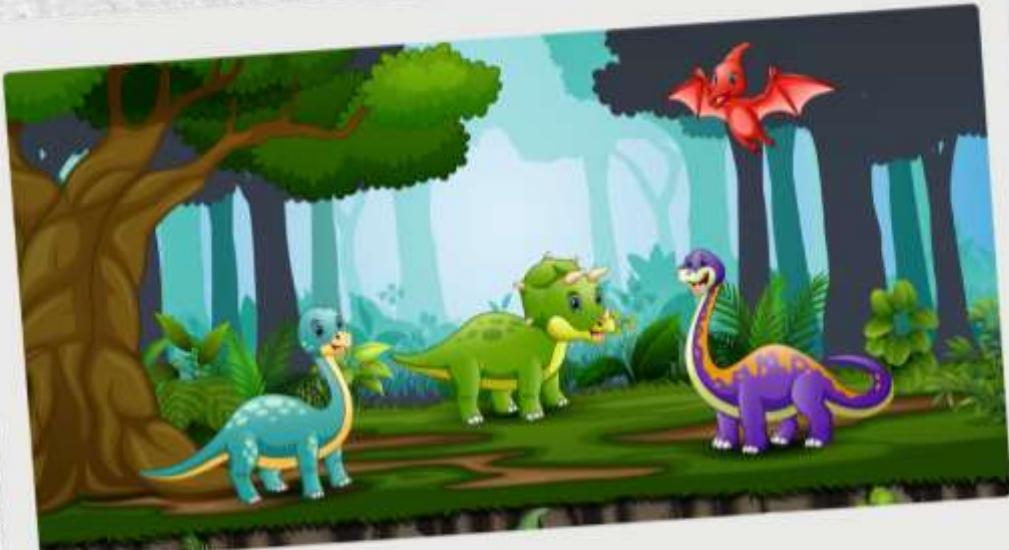

Dinosaur Discovery

Objective:

Create a presentation about dinosaurs.

Instructions:

- **IMAGINE DINOSAURS:** Think about different types of dinosaurs, like T-Rex or Triceratops. What did they look like and where did they live?
- **DRAW YOUR DINOSAURS:** Sketch your favorite dinosaurs and their habitats.
- **DESCRIBE AND CREATE:** Use your drawing to make a presentation in Tome.
- **SHARE:** Share your dinosaur presentation with friends and family and see their reactions!

Mission 1

Superhero Showcase

Objective:

Design a presentation about your favorite superhero.

Instructions:

- **PLAN YOUR SUPERHERO:** Imagine what makes your superhero special. What are their superpowers, and what do they do to save the day?
- **DRAW YOUR HERO:** Sketch your superhero in action, with their powers and cool gadgets.
- **DESCRIBE AND CREATE:** Use your sketch to make a superhero presentation in Tome.
- **SHARE:** Show your superhero presentation to your class or friends and ask them what they like best!

Mission 3

Space Amusement Park

Objective:

Make a presentation about a fun amusement park in space.

Instructions:

- **THINK OF SPACE FUN:** Imagine a park with space rides, alien games, and futuristic attractions.
- **DRAW YOUR PARK:** Sketch the rides and attractions you'd find in a space amusement park.
- **DESCRIBE AND CREATE:** Use your drawing to create a space amusement park presentation with Tome.
- **ENHANCE:** Adjust your presentation as needed and share it with others!

BONUS CHALLENGE: Fantasy Fun!

Combine elements from all three missions into one super cool presentation. Maybe it's a space park with superhero dinosaurs! Let your imagination go wild and create something amazing!

Prompts to Get You Started

PROMPT 1

Create a presentation about different types of dinosaurs, including their names, what they looked like, and where they lived.

PROMPT 2:

Design a presentation on your favorite superhero, including their powers, costume, and exciting adventures.

PROMPT 3:

Make a presentation about a fun space amusement park, featuring rides, games, and alien friends.

Ready to start making awesome presentations?
